

Erasmus+

WHAT CAN WE MAKE/GROW ORGANICALLY

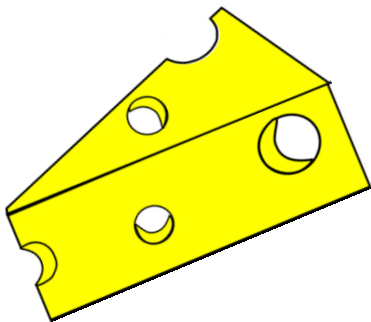

Aim:

- ✓ Find out more about an organic farm.
- ✓ Visit a farm and find out more about organic farming.
- ✓ Clear up what is grown organically.
- ✓ Get more information about making organic cheese and its price.
- ✓ Compare prices to organic cheese and cheese which we can buy in shops.

Activities:

- Discussion about differences between organic and other farms.
- Students visit organic goats' farm. Owners explain and show how they grow animals and vegetables. Students have lots of possibilities to ask about production and equipment expenses, cost and sale price.

Students fill in tables about production expenses according to a given plan.

Evaluation:

At home students count possible profit of production. They prepare a presentation and a report, about organic production advantages, which can be found in school's website.
