Erasmus+ Programme  
of the European Union

Transnational Project Meeting, Naples, 24-29.09.2018.

Objectives of the Meeting:

- monitoring the progress, evaluation and implementation of the project;
- discussing management, future arrangements, possible problems and their solutions,
- assessing and assuring the quality of the project's activities and outcomes;

All the objectives were met. During the TPM, managing team had three working sessions during which we sat down to discuss project's progress and achievements so far. All the deadlines were checked (if they had been met up to that point), future deadlines were looked through. Coordinators also analysed the first part of project's final product, Essential Life Skills Guidebook, a chapter on Healthy Nutrition, created by ELS students and teachers during and after LTT event in Greece. ELS interim evaluation report created by Polish coordinator was analysed in order to check if all the objectives of the project are met. List of dissemination events was evaluated in order to make sure that the project is disseminated properly in all partner countries.

All the participants of this TPM event had also chance to get to know Italian history and culture better by taking part in a guided tour of Naples, visiting two coastal towns: Amalfi and Positano, or impressive ancient ruins of Pompeii.
